

ATLANTA FACES *of* DESIGN

KIT CASTALDO

Kit Castaldo is the principal designer and owner of Kit Castaldo Design. Since founding her firm in 2013, Kit has worked on a wide variety of projects, each unique in size, scope and style.

With degrees in both textiles and interior design, Kit's education coupled with years of experience create a refined expertise in designing homes. Drawing inspiration from architecture, light and scale, Kit strives to make a statement in each space by blending the comfort of traditional styles and classic elements with clean lines and a hint of contemporary sleekness. While Kit has an fondness for a neutral palette, warm materials and natural elements, her work is very client dependent. Whether the job calls for a formal space or a laid-back, relaxed atmosphere, she works closely with each client to elevate their style while adding value to their home. The final result is a beautiful setting that exudes warmth and comfort while reflecting the client's personality through layers of texture and the perfect touch of color.

Kit's work has been featured in Atlanta Homes & Lifestyles, the 2021 Home for the Holidays Designer Showhouse and StyleBlueprint.
